# TSSI: FREQUENTLY ASKED QUESTIONS

## Q- What type of media should I use?

A- Don't worry at all, an experienced product specialist will walk you through your project specifics and help you identify what works best for your application. Not only will they help you decide what is the best option, but they can also provide pricing and logistics directly to your site.

## Q- Do I have to rent month-to-month?

A- No, we can offer daily or even weekly rates, we understand the most cost-effective and efficient solutions are key. **TSSI is here to help!**

## Q- Should I use carbon steel or stainless steel?

A- Depending on the source water or any specific chemicals being used, will need to be identified to help ensure the correct equipment is selected. After a brief walk through your project needs, a designated projects specialist will be able to identify the appropriate system for you and your project.

## Q- Is delivery included in rental price?

A- Freight cost is a separate charge, and one time fee to site and one time fee back to our facility. Rental fees are billed up front or monthly based on customer preferences.

## Q- Is media provided with equipment?

A- Media can be packaged with our without equipment.

# TSSI: FREQUENTLY ASKED QUESTIONS
